The Worrinots - Home Edition
Developer: Worrinots Ltd

Cost: In App Purchases

Developer description:

Let children off-load their worries with The Worrinots app in the comfort of their own home. Parents/carers will need to use the Wotnot companion app to be able to monitor your child's concerns.

[Show Less](#)

The Worrinots is the very first secure app designed for children; specifically created to tackle the worrying increase in well-being concerns in young children. The Worrinots app provides children with a safe and secure place to share their worries fears and concerns, which in turn provides them with a practical fun coping mechanism for their fears, using one of the four Worrinots characters. Happy, safe and secure children thrive spiritually, socially and emotionally, so when The Worrinots are taking care of children's worries, parents/carers can be assured their children are getting the best start in life. When children are looking for Worri-tips and advice using the app, parents/carers can feel safe in their knowledge of knowing The Worrinots app is a secure platform they can trust.

Stay Alive

Developer: Grassroots Suicide Prevention

Cost: Entirely Free

Developer description:

This app is a pocket suicide prevention resource, packed full of useful information to help you stay safe. You can use it if you are having thoughts of suicide or if you are concerned about someone else who may be considering suicide.

Show Less

In addition to the resources, the app includes a safety plan, customisable reasons for living, and a life box where you can store photos that are important to you. Grassroots Suicide Prevention is a charity that supports communities to prevent suicide. We teach suicide prevention skills to community members and professionals. We work hard to raise awareness of suicide prevention and reduce the stigma surrounding suicide. Grassroots Suicide Prevention is not a crisis service.

Clear Fear

Developer: Stem4

Cost: Entirely Free

Developer description:

Clear Fear provides you with a range of ways to manage anxiety.

Show Less

Developed by a clinician co-collaboratively with young people, Clear Fear uses a Cognitive Behavioural framework to help you change anxious thoughts and emotions, alter anxious behaviours and calm fear responses. It also has helpful descriptions of the different ways in which anxiety shows, resources and a grit box to boost resilience. It is recommended for the ages of 11-19 years but can be used by a younger group with the support of a parent or carer. Clear Fear compliments, but does not substitute for the assessment and ongoing support of a mental health.

Cove: music for mental health

Developer: Humane Engineering

Cost: Entirely Free

Developer description:

Expressing your emotions can be hard. It can be easier if you make music! Cove is trusted by doctors and therapists as a safe and secure way to look after your mental health.

Show Less

EASY TO USE • First **SCROLL** pick a mood that helps you frame your mood • Then **TAP** to add chords, melody or even percussion • You can **SWIPE** to change instruments - there's over 30 to choose from • Explore and be creative - there is no right or wrong way to make music! **HOW IT WORKS** We believe Cove has a role to play in improving emotional and mental health by encouraging self-expression. We believe Cove is especially good if you experience anxiety or depression. Cove can be used any time, but may be most useful when you find it difficult to express yourself through other means, such as talking or writing. You can use Cove whenever you feel like it. You can make music by yourself, or share what you make with others. **EVALUATED BY CLINICAL EXPERTS** We think it is important that any app that advertises about mental health takes it seriously. That is why Cove has been tested, evaluated, and trialed in health services in the UK, and has been created in collaboration with clinicians and other specialists. Cove primarily uses music
